

# Job Description – Python Developer

**Location:** Tambaram

**Experience:** Above 2 Years

**Salary:** Competitive, based on experience

## About the Role

We are looking for a skilled **Python Developer** with 2+ years of hands-on experience in software development. The ideal candidate will have strong programming skills, problem-solving ability, and exposure to frameworks and technologies in AI/ML will be an added advantage.

## Key Responsibilities

- Design, develop, test, and maintain scalable Python applications.
- Work with frameworks such as Django/Flask/Fast API.
- Collaborate with cross-functional teams to deliver quality solutions.
- Write clean, maintainable, and efficient code.
- Integrate APIs, databases, and third-party services.
- Contribute to discussions on architecture and performance improvements.

## Required Skills

- Strong knowledge of Python programming.
- Experience with web frameworks (Django, Flask, Fast API).
- Good understanding of RESTful APIs and database management (MySQL/PostgreSQL).
- Familiarity with version control (Git).
- Basic knowledge of cloud platforms (AWS/Azure/GCP) is a plus.
- AI/ML exposure (TensorFlow, PyTorch, Scikit-learn, NLP, etc.) is an added advantage.

## Interview Process

1. **HR Screening**
2. **Technical Interview**
3. **Final HR Discussion**
